

BHAVYA CHHABRA

📍 Gurugram, India ✉ bhavya.chhabra200@gmail.com 📞 +917988575073

SUMMARY

Data Scientist with 2+ years of experience in financial services and portfolio analytics. Experienced in building and optimizing SQL pipelines, performing EDA, feature engineering, and developing predictive models using Python and Scikit-learn. Strong background in transforming large datasets into reliable analytical solutions for reporting, portfolio monitoring, and business decision-making.

SKILLS

Programming & Analytics: Python (Pandas, NumPy, Scikit-learn), SQL, Advanced Excel, Data Wrangling, Large Dataset Processing

Machine Learning & Statistics: Exploratory Data Analysis (EDA), Feature Engineering, Classification & Regression Models, XGBoost, Model Validation, Predictive Analytics, Statistical Analysis

Reporting & Visualization: Power BI, Dashboard Development, KPI Reporting, Data Storytelling, Stakeholder Reporting

Data Engineering & Operations: SQL Pipelines, Data Validation, Process Automation, Query Optimization, Workflow Automation

EXPERIENCE

DATA SCIENTIST

Oxane Partners, Gurugram

September 2024 - Present

- Built and validated Logistic Regression and Decision Tree models to predict loan delinquency risk, with outputs integrated into client reporting workflows.
- Performed end-to-end EDA and feature engineering on 10K+ loan records, including data cleaning, derived feature creation, and model input validation.
- Redesigned SQL pipelines to eliminate reporting bottlenecks, reducing turnaround time by ~35% and improving reporting reliability.
- Identified and resolved data mismatches across multiple reporting sources, including discrepancies impacting ~\$2M in reported figures, and implemented automated validation checks.
- Developed and maintained Power BI dashboards for cash flow, delinquency, and portfolio performance tracking, reducing manual reporting effort.
- Optimized SQL queries on large loan-level datasets, improving execution time by ~20–25% and accelerating ad-hoc analysis.

PROJECT

Prepayment Rate Analysis & Reporting Automation | Oxane Partners | 2025

- Built regression models to analyze prepayment trends across loan segments, supporting portfolio monitoring and client reporting.
- Redesigned SQL reporting pipelines and implemented validation checks, reducing TAT by ~35% and improving reporting stability.

Loan Delinquency Risk Modeling | Oxane Partners | 2024

- Developed classification models to predict loan delinquency risk using borrower and payment history data.
- Conducted EDA, feature engineering, and validation on 10K+ loan records, with outputs integrated into reporting dashboards.

EDUCATION

Masters of Science, Physics

Kalinga University • 2021

Bachelor of Science, Physics

Hindu College, Delhi University • 2016

CERTIFICATIONS

Machine Learning Specialization – Coursera (Andrew Ng, Stanford University) | 2023
